

Innovation to squeeze

NEW PACKAGING GENERATION
PACKAGING DI NUOVA GENERAZIONE
NEUE VERPACKUNG GENERATION
GENERATION DE NOUVEAUX EMBALLAGES

sigillanti
Siliconi universali, sanitari, neutri, etc.

dichstoffe
Universell Silikon, Schimmelbeständig, Neutral, etc.

sealants
Universal silicone, sanitary, neutral, etc.

mastic
Silicone universel, sanitaire, neutral, etc.

available packaging and content from 40 ml to 200 ml

available shoulders

colle viniliche
Colle viniliche in generale.

vinyl kleber
Vinylacetat-Kleber im Allgemeinen.

vinyl glue
Adhesives vinyl acetate in general.

adhésif en vinyle
Colle aceto-vinyle en général.

available packaging and content from 40 ml to 200 ml

available shoulders

sigillanti
Siliconi e sigillanti alte temperature etc.

dichstoffe
Hohen Temperaturen etc.

sealants
High temperature etc.

mastic
Haute temperature etc.

available packaging and content from 40 ml to 200 ml

available shoulders

colle neopreniche
Poliuretatiche, a base solvente.

neopren kleber
Polyurethan, Lösungsmittelbasis.

neoprenic glue
Polyurethane, solvent base.

colle néoprène
Polyuréthane, a base de solvants.

available packaging and content from 40 ml to 200 ml

available shoulders

MS polymer

materiali a base acqua
Stucchi, acrilici, pitture, gel cleaner etc.

produkts auf wasserbasis
Spachtelmasse, Dichtmasse, Farbe, Industriereiniger etc.

water based materials
Acrylic fillers, acrylics, paints, gel cleaner etc.

produits à base d'eau
Stuc, acrylique, vernis, détergent etc.

available packaging and content from 40 ml to 200 ml

available shoulders

available packaging and content from 40 ml to 200 ml

High quality products, in new packaging generation

Una delle nostre specializzazioni è la **PRODUZIONE** ed il **CONFEZIONAMENTO** di tubetti in laminato: la nuova generazione di packaging. Questa nuova tecnologia consente di confezionare da prodotti molto semplici come quelli a base acqua fino alle aggressive colle neopreniche e poliuretatiche, con risultati straordinari grazie alla sua struttura multistrato (5 strati).

Eine von unseren Spezialisierungen ist die **Herstellung** und **Verpackung** von Laminattuben: die neue Generation der Verpackung. Diese neue Technologie ermöglicht die Verpackung von verschiedenen Produkten, von einfache wässrigen, bis zu den aggressiven Neopren und Polyurethanleime, mit bemerkenswerten Ergebnissen dank seines mehrschichtigen Aufbau (5 Schichten).

One of our specialisations is the **PRODUCTION** and **PACKAGING** of tubes in laminate: the new generation of packaging. This new technology makes it possible to pack from the very simplest water-based products to the strongest, such as neoprene and polyurethane glues, with exceptional results because of its multilayer structure (5 layers).

Une de nos spécialisations est la **PRODUCTION** et le **CONDITIONNEMENT** de tubes en laminé: la nouvelle génération de packaging. Cette nouvelle technologie permet de conditionner des produits très simples, comme les produits à base d'eau, mais également les colles agressives au néoprène et au polyuréthane, avec des résultats extraordinaires grâce à une structure multicouches (5 couches).
